

# HERE'S the POINT

By SPENCE HELD

Some of these Peninsula people sure get around!

Comes now a letter from Katherine G. La Fond in Waltair, Andhra State, India. Her husband, Eugene C. La Fond, has a second Fulbright Grant and is teaching oceanography at Andhra University as well as conducting oceanographic research in the Bay of Bengal. (Their home here is on Santa Cruz Ave.)

"We have finally arrived at Waltair," she wrote, "after a pleasant though strenuous trip. The air flight was wonderful except for a bumpy time as we passed through the fringes of typhoon Joan while nearing Japan."

"Once lightning struck the plane and activated the neon dome light, causing it to light up like a flash bulb, accompanied by a loud report. As we were dozing it was rather a surprise."

In Tokyo they had a sukiyaki dinner. "Shoes were checked at the front door, slippers at the dining room door," she wrote. "We sat on cushions on the mat carpeted floor and ate and drank from a table about a foot high."

When their plane landed at Hong Kong, "even Gene helped the pilot, Terrain is steep and rugged. The plane dropped below the hills, entered a pass and came to a screeching halt on a short runway bordered by hills."

"Calcutta showed up like a sea of lights... The 400 mile train ride south to Waltair passed through flooded areas but was uneventful. The welcoming committee of the University escorted us to our quarters in the Faculty Club, our wonderful cook-bearer, Thomas, had a chicken dinner waiting, and so we are practically settled."

Yeah, and the mailman also brought a 1956 copy of The Old Farmer's Almanac, said to have been established in 1792.

It's "fitted for Boston and the New England states, with special corrections and calculations to answer for all the United States... Containing, besides the large number of Astronomical Calculations and the Farmer's Calendar for every month in the year, a variety of new, useful, and entertaining matter."

Reviewers are cautioned that the release date is Oct. 31. That lets me out, today being the 27th—far be it from me to break the release date on an almanac, Mac!

Anyhow, the first old farmer who pops into the office can have it. Me, I ain't agricultural.

## Bach Concertos To Be Played At Dana Friday

Howard Wells and Howard Brubeck, who have teamed to present two-piano recitals for the past three years, will appear at Dana Junior High School Auditorium at 8:30 p.m. Friday, Oct. 28, in a concert of Bach concertos.

They will be assisted by a chamber orchestra composed of members of the San Diego Symphony Orchestra, according to C. A. Lewis, of the University of California Extension Service, which is presenting the performance as part of its current concert series. Daniel Lewis will be concert master.

Members of the chamber orchestra include Lewis and Henry Kolar, first violins; Wendell Waterman and Juanita Mooney, second violins; Keith Collins and Nick Stamon, violas; Paul Anderson, cello, and Edwin Mann, bass.

Brubeck, chairman of the music department at Palomar College, has composed works performed by the San Francisco Orchestra; the National Symphony in Washington; the Belgian State Radio and the French National Radio. Wells also is a composer, who has appeared in concert in Town Hall, New York, and in solo recitals in Switzerland, England and Germany. He has appeared as soloist with the Los Angeles Philharmonic and other orchestras, and last summer was selected as one of the players in Bach's Triple Piano Concerto presented by the San Diego Symphony.

## United Success Drive Report

The Peninsula lost its hold on a United Success Drive "Oscar" this week under pressure from Hillcrest-Mission Hills in the residential campaign.

The "Oscars" go to the first area in each campaign region to make quota. The Peninsula, Hillcrest-Mission Hills. Door-prize one region.

Mrs. Harley C. Greaves, Peninsula chairman, said this area is 5.6 percentage points behind Hillcrest-Mission Hills. Doorbell campaigners in this area, she said, have brought in contributions totalling \$13,547.37 or

50.5 per cent of the \$26,781 on a United Success Drive "Oscar" this week under pressure from Hillcrest-Mission Hills in the residential campaign.

Although campaigners have made a great effort to reach all homes here, Mrs. Greaves pointed out that frequently people have not been at home when the campaigners made their rounds. She urged those who have not yet seen a campaigner to mail their contributions to the Community Chest, 3535 Enterprise St., or call AC-3-7191 and ask that someone stop by to pick up the contributions.

## NEW \$500,000 SUPER MARKET TO BE COMPLETED BY JAN. 1

Point Loma's new half-million-dollar Food Basket super market, now under construction at the intersection of Talbot and Canon on Catalina Boulevard, is one of three new stores which will be added to the locally-owned and operated Food Basket grocery chain by the end of the year, Gerald A. Awes, president of the "firm," announced today.

Other additions, which will boost the total number of San Diego stores to six, include the Chula Vista Food Basket, now being constructed, and acquisition of the recently-opened Wizeowl Super Market, located at 65th and University.

Tentative opening of both the Point Loma and Chula Vista stores is set before the end of the year. Food Basket hopes to staff its new markets, wherever possible, with personnel from the area in which each store is located.

Food Basket super markets now employ 160 full-time and 60 part-time workers. When new stores are completed and in operation, total payroll is expected to exceed 400 employees.

Business volume last year ran well over \$10,000,000, Awes revealed. New facilities are expected to increase total volume to more than \$18,000,000.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

The Federal Communications Commission has long shown the absurdity of setting up control bureaus in government without requiring that at least a part of the members are from the ranks of independent business.

The FCC has complete and utter control over use of nation's airwaves and presumably is charged with enforcing fairness in their use. Yet, so far, FCC has taken no steps to remedy what is considered a very flagrant abuse of fairness.

On television programs, between programs there are usually placed two 30 second spots. In between there is a short ten second spot known as a station identification spot, or break. Under FCC rules, between programs a station must identify itself in some manner.

So television stations have worked out a method of producing revenue from this identification break. Usually, for about half the cost of a 30 second spot, a sponsor can buy a ten second spot for his product, but the upper one-fourth, or one-third of the area must be taken up by the station's call letters.

However, National Broadcasting Company is owned by RCA which makes television and other appliances. A growing chain of stations is also owned by Westinghouse, which also makes a full line of appliances. In addition, Columbia Broadcasting Company also makes and markets CBS TV sets.

Mr. and Mrs. J. W. Calvin and baby, Lisa Ann, are entertaining Mrs. Jean Kuhn of Rochester, N. Y. Mrs. Kuhn is Mrs. Calvin's mother. The family moved here recently from San Diego and have purchased a home in the 4500 block of Pescadero Ave.

Bob Dietrich was home on leave from Parks Air Force Base in time to attend the Homecoming game at Point Loma High School Friday. Bob is a

in authentic reproductions that provide the beauty of the luxurious stone at a fraction of its cost. Large four-foot-wide panels cover walls more quickly than materials fabricated in small units. The paneling's smooth hard baked surfaces, resistant to moisture and soiling, is easily wiped clean. It has a durable serviceable base of Masonite tempered hardboard. Matching moldings are available for the paneling as are waterproof adhesive and joint-sealing compounds. The paneling also is made in plain colors and wood grain patterns.

So now the practice has started that during these 10 second spots, not only are station call letters given, but it is also identified as Westinghouse, RCA, et al.

Thus, every change of program, free advertising is permitted over the air for the appliances manufactured by these few firms who also own television stations.

This in turn gives them a wide edge over all other competitors, as none of the competition has any way of getting beer, bread, or other advertisers, to pay the cost of flashing their appliance brand name on the television screens of the nation.

In many areas, especially where an NBC and a Westinghouse station practically control the television outlets, this has been found to work a disadvantage to the independent distributors and retailers of all the other brands of television, radio, refrigerators, ranges, and other appliances.

Of course it probably would be unfair to say that FCC members knowingly permit this practice. But as in most bureaucracies, there is lacking in the membership qualified people who would recognize the unfairness of such procedures.

But one thing is sure. Any independent distributor seeking to sell some other brand of appliances realizes that having the brand name of Westinghouse flashed on the local television screen every half hour, is not at all helpful to him. And as for those who pay for such identification spots which also promote an appliance brand name, it could truly be said that never have so many been soaked so much for the benefit of so few.

graduate. He will next be stationed at Keesler Air Force Base, Biloxi, Miss., where he will attend Radar School.

Mr. and Mrs. Richard Negus and two young sons, Ted and Tim, came here from Lompoc, California, and are making their home in the 4200 block on Montalvo St. Mrs. Negus is an active club woman and hopes to be active in her new community.

Sheila Campbell gave herself and her parents, Mr. and Mrs. Paul Campbell, a bad scare last week. A call came to her parents from a schoolmate of Sheila's at Woodbury College, Los Angeles, that Sheila had suddenly become paralyzed from the waist down. Mrs. Campbell immediately drove to her aid, bringing her home for medical attention. Tests dispelled the thought of polio and upon competent treatment she improved sufficiently to return to school after a week at home.

Mr. and Mrs. Harold Richard-

son and three children, Harold, Carol and Jane, have recently moved from 1746 Warrington to 4741 Orchard Avenue. They are temporarily at home on Orchard until their new home in Fleetridge is built. Mr. Richardson is a staff engineer at Convair.

Attending were: Mrs. Rovella Willis, grand regent of the Ocean Beach Court; Mrs. Fred Thompson, vice regent; Mrs. Dan Bettencourt; Mrs. Lillian Bamford; Mrs. Jean Leahy; Mrs. Joanne Kuphaldt; Mrs. Al McConnell and Mrs. George Wagner.

Mr. and Mrs. F. P. Super and two children, Mitchell and John of Tucson, Arizona, are making their home in the 4600 block on Bermuda Avenue. The two children attend Sacred Heart Academy.

Nick Pattingill, 1989 Catalina Blvd., will finish his boot training at the Naval Training Center next week and after two weeks' leave will proceed to Norman, Oklahoma to attend Aviation Photographic School.

Mr. and Mrs. John T. Donnellan of Bishop, California are here making their home in the 4400 block on Froude Street. Mr. Donnellan is a district salesman for a wholesale furniture company.

A dream of 20 years has been realized by Mr. and Mrs. Felice Izzarelli of Chicago—they have moved here to make their home. On Poinsettia Dr. Mr. Izzarelli has retired from 32 years in government duty. Their five children reside here, namely: Mrs. Arthur L. Langston, Jr., Mrs. Frank Brunl, Joe, Frank and Raymond Izzarelli.

## Tips on Touring

By Carol Lane  
Women's Travel Authority

Women all over the United States are making traffic safety their business—and doing a business-like job.

I saw striking proof of this in Chicago at the judging of the entries for the 1955 Carol Lane Awards for Traffic Safety. Entries came from housewives, mothers, teachers, women's clubs and PTA's. All had contributed to safety by promoting safer school crossings, driver training, bicycle safety, improved traffic control, or better road design.

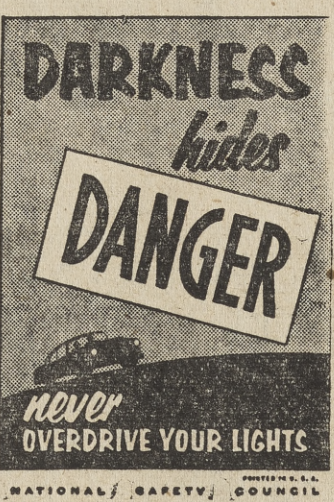

Picking winners from so good a field was a job for experts. The National Safety Council, which administers the Awards through grant of Shell Oil Company, had secured as judges these distinguished women: Miss Margaret D. DeVore, health and safety chairman, National Federation of Business and Professional Women's Clubs; Mrs. Mason G. Lawson, president, Woman's Auxiliary to the American Medical Association; The Honorable Geraldine Macelwane, Judge, Municipal Court, Toledo, Ohio; Miss Marion E. Martin, Labor and Industry Commissioner, Augusta, Maine; Mrs. Ivy Baker Priest, Treasurer of the United States; Mrs. Margaret Woolverton Savage, traffic engineer, Quinton Engineers, Ltd., Los Angeles, Calif.; and Miss Gretchen Vanderschmidt, immediate past president, Altrusa International. Consultants were Mrs. Agnes D. Beaton, director of women's division, Automotive Safety Foundation, and Miss Alice C. Mills, director of women's activities, National Safety Council.

Top Award for both individuals and organizations is a \$1000 savings bond and a 12-inch statue symbolizing woman's protective instinct. Second and third awards are \$500 and \$250 in savings bonds, respectively, and bas-relief plaques of the statue. Winners will attend the National Safety Congress in Chicago in October as guests of Shell.

Details about the 1956 Carol Lane Awards can be obtained from Miss Alice C. Mills, National Safety Council, 425 North Michigan Ave., Chicago 11, Ill.

will be held Friday, Nov. 4, from 9 a.m. to 9 p.m., at 1909 C.ble St., it was announced. Ten booths will feature toys, plants, aprons, white elephants, doll clothes, Christmas gifts and decorations.

## FCDA Expects Most Homes To Have Own Warning Devices Before Long

Engineers working with the Federal Civil Defense Administration now are convinced that within the next few years, 99 percent of American homes can be equipped with a warning signal to alert families of enemy attack or a civil defense emergency.

Research funds for a home warning system were made available for the first time under the current FCDA budget, although studies in this field have been under way almost from the time civil defense was first organized. FCDA's Warning and Communications office has long recognized that the present system of siren warnings is not completely adequate in that it cannot reach all areas and that the sirens are not always audible to many people who are indoors.

Since the goal is to alert 100 percent of the population in times of possible danger, it is accepted that an indoor signal must be developed which will supplement the outdoor sirens.

FCDA does not envision the indoor signal system as supplanting other warning methods. Instead it is thinking along the lines of a signal to call attention to the possibility of impending danger and to make sure that everyone gets the information which is being transmitted by radio or other means.

Obviously such a system would have a value beyond its use in event of enemy attack. It could be used to alert the public in time of immediate danger and send those at home to their radios where they would hear bulletins and receive instructions.

Tentative plans are under way in one western community for a test of one type of home signal. Sponsors of this particular test originally conceived it for use as a warning against tornado danger but are now revising their plans to incorporate the device into the civil defense program.

### Cloth Net for Vise

WHEN working with small parts at your workbench, use a cloth net so they won't drop to the floor. As illustrated in Popu

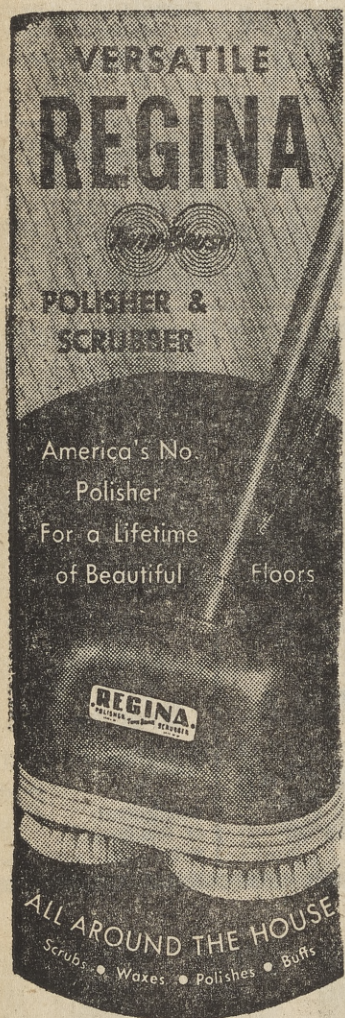

lar Mechanics, the cloth is supported on a wire frame from the under side of the bench top. The heavy wire is bent into a U-shape. Ends of the wire slip into screw eyes for easy removal when the net is not in use.

Edges of the cloth may be hemmed to fit over the wire.

## HEALTH FOR ALL

Tuberculosis is a convenient disease for the novelist or playwright. It's been used by some of the greatest and some of the worst.

There's the romantic tragedy: the beautiful heroine who dies coughing delicately. Or there's the young genius who dies just as his masterpiece is recognized. In the "no one must know" type, our hero struggles to support his younger brothers, telling no one that he's ill; or the social butterfly refuses to be an invalid and plays out her life in hectic gaiety.

There's rarely any mention, of course, of the fact that these charming people are spreading an infectious disease. That wouldn't fit the romantic picture.

It is true that pulmonary tuberculosis — tuberculosis of the lungs — has no obvious symptoms in its early stages. The disease can be present without either the victim or those near to him being aware of it.

May Be Overlooked  
It can be months, even years, before the well-known symptoms are evident. And even these: constant tiredness, loss of appetite, fever, night sweats, shortness of breath, and cough may be overlooked or attributed to some other cause.

However, symptoms aren't the measure of the danger of TB. It's what happens inside the body that's important. The old name for TB of the lungs — consumption — describes it well.

The tissue of the lung is being eaten away, the ability of the lung to function weakened. People can be cured — that is, the wasting process can be stopped. But destroyed tissue can't be replaced.

The longer the disease has been allowed to go untreated the greater the permanent damage. The person who has lost much lung tissue is a cripple, even though his disability can't be seen.

His activity is limited both by his loss of lung function and by the fact that he must always guard against another outbreak of the disease, a recurrence that might be fatal. A crippled lung is not romantic to the individual who must live with it.

(This column is sponsored, in the interest of better health, by the San Diego County Tuberculosis and Health Association and the Peninsula News.)

There will be 17 boys going up for Bobcat Pins, and awards will be presented to other cub scouts. Plans were made for a booth to be maintained by Pack 28 at the Halloween Carnival.

### ESSAY CONTEST

Christopher Calkins, Cabrillo School fifth-grader, is the proud owner of a first place trophy cup awarded by the Italian-American Civic Association in its annual Columbus Day essay contest.

Tamra Platt, also of Cabrillo, won second place honors. Their names will also be engraved on a permanent wall plaque presented to Cabrillo by the Association several years ago, according to Miss Grace E. Finley, principal.

The local winners, along with two from Washington School, received recognition at the association's 14th annual dinner held recently in Hotel San Diego. Miss Finley, and Norris Howe, Washington principal, were honored at the dinner. The young writers also were introduced on a television program by Cosimo Cutri, association president.

The fossils of a "shovel-tusked" mastodon, not known before in Western North America, were recently recovered from the Clarno, Oregon, fossil beds, according to the National Automobile Club.

Glad to be back to Point Loma "for keeps" are Mr. and Mrs. Frank A. Gibson who have bought a home in the 2800 block of Evergreen. They formerly lived in La Jolla. Mr. Gibson is a County Supervisor.

Enthusiastic newcomers from Vancouver, Canada are Mr. and Mrs. R. C. Henderson who are at home now in the 1500 block of Rosecrans.

Dr. and Mrs. M. J. Zemlick and their four children have moved to Point Loma from St. Louis, Missouri and are making their home in the 3300 block of Zola St. Dr. Zemlick is a clinical psychologist at the Naval Training Station.

Mr. and Mrs. Roy M. Wood and children are busy getting settled in their new home in the 3400 block of Macaulay St. Fourteen year old Marilyn attends Dana while the twins, Janet and Joan, and their brother, Miles, attend Loma Portal School. They formerly lived at 3615 Lotus Dr.

Moving into their new home in Loma Valley are Mr. and Mrs. Paul Callahan and their three sons, Paul, Danny and Terry. Their new address will be in the 700 block of Gage Drive. Mr. Callahan is a structural engineer for a local aircraft company.

### Safety Stressed For Halloween

With Halloween approaching, parents are urged by the Traffic Safety Council to make sure that the costumes and masks worn by their children on "Trick-or-treat" rounds give utmost protection to the tiny pedestrians bent on having a good time.

Many commercially produced masks tend to obscure the child's vision because of small holes cut for the eyes, and these are totally inadequate for seeing the danger of oncoming cars when crossing streets. But by cutting the eye holes larger they may be made useful. Better still, the Council suggests the use of makeup instead of a mask, allowing full clear vision. Many wonderful and amusing effects can be created with the use of make-up, and accessories such as moustaches and false teeth.

Some costumes, the Council points out, are of brightly colored material, but many are black and hard for a motorist to see. Make sure your child wears a light colored costume, or one that is decorated with reflectorized or glitter material.

The Council also suggests that the witches broomstick, the "trick-or-treat" bag, the jack-o-lantern and noise makers be decorated with reflectorized tape to help make the children easily visible to motorists.

Ronald T. Strong, president of the Council has asked that all parents in selecting costumes for their children take note of these hints for greater safety on Halloween night. "A costume easily visible to the motorist driving at night, may save your child from serious injury," he added.

The remaining seven of the 14 new staff members at Dana Junior High are presented here. The other new teachers were introduced in an earlier issue.

Mrs. Violet Rogers taught at La Jolla Elementary School before coming to Dana to teach social studies and English. She received her teacher's training at Phoenix City College, San Diego State and the University of Colorado.

The University of Virginia, American University and George Washington University are the colleges where Lee Curtice, Dana's new librarian, received his education. He grew up in Virginia and also lived in New York, Mississippi and Alaska. His most unusual experience was when he found himself surrounded by bears in Alaska.

Miss Nancy Frieriks, an English teacher, is from Wisconsin. Her hobby is music and her most unusual experience was getting a broken nose while playing football. (It is hard to picture this soft-spoken, blonde young woman playing football.)

Born in Massachusetts, David Thompson, a science and math teacher, lived on an Indian Reservation in South Dakota. He was taught by his mother and took correspondence courses through the sixth grade. He finished his education at the University of California.

Martin Lacey, a math teacher, came to Dana from Massachusetts. He spent four years in

World War II and two years in the Korean War.

The new physical education teacher is Miss Rosemary Dillard. She attended Hendrix College, at Conway, Ark., and Peabody College, Nashville, Tenn. Miss Dillard is now in her eighth year of teaching physical education.

James Randall, an English teacher from Minnesota, graduated from the University there. He lived in New York and taught in Minnesota before coming here to teach. He was stationed in San Diego during his tour of duty with the Navy.

## CHORAL CLUB ACCEPTS FIVE PENINSULA WOMEN

Five Peninsula area women have been authorized and accepted into the San Diego Choral Club, it was announced this week.

The new members are Mrs. Alan Hamilton, 4360 Newport; Mrs. Doyle Coons, 1345 Santa Barbara; Mrs. Ray C. Thompson, 3822 Udal St.; Mrs. Claire R. Seeley, 3859 La Cresta Drive; and Mrs. John Ingram, 3436 Visteria Drive.

A luncheon, honoring the new group, was scheduled today at 12:30 in Lemon Grove.

By reducing wear, modern, high-quality motor oils can triple the life of a car engine, points out the National Automobile Club.

## Bank Announces J. C. Awards

Junior college students preparing for business and secretarial careers will have a chance at cash awards and public recognition this year, under Bank of America's new Junior College Business Awards program for Southern California.

The new awards were announced jointly this week by Forrest G. Murdock, president of El Camino College, who is chairman of a committee of college administrators on the awards, and Jesse W. Tapp, chairman of the bank's board of directors.

About 30 colleges of the Southern California Junior College Association will participate. Two winners will be picked from each school—one majoring in banking or business administration, the other in secretarial or clerical studies. Each winner will receive a certificate of merit and \$100 in cash. They will be chosen for the awards by a faculty committee in each college, and will be judged on scholarship, personality, and

either their participation in additional school activities or outside employment, or both.

Dr. Silverman, science editor of the San Francisco Chronicle, has written scientific articles for the Saturday Evening Post, Collier's, Reader's Digest and other magazines, as well as a book, "Magic In A Bottle."

Mrs. David A. Finster will serve as a hostess. Other Peninsula area members assisting the chairman, Mrs. Kenneth S. Beam, will be Miss Susie E. Agey and Mmes. L. H. Henderson, Darrell F. Perius, Albert F. Bedford and Burton Peart.

Mrs. Melvin F. Godwin, branch president, will preside. Guest tickets may be purchased in advance from Mrs. Laurence Wilson, AC-2-5810.

## WHAT'S DOING

### Housewife rates her telephone "tops"

"Of all my household items," says Mrs. F. G. Dominey, "I think my telephone is the most useful. I can't count all the ways I depend on it. For example, I do a lot of my shopping by phone. Then there are the calls for repairs, to make appointments, to round up my youngsters in the neighborhood, and for a hundred and one other things. And that doesn't include all the pleasure our phone brings us...as a fast, easy way to visit friends and relatives. I certainly don't know what we'd do without it." Most people we've talked to agree with Mrs. Dominey about the usefulness of the telephone. Isn't it true that few things which serve so well cost so little? Pacific Telephone works to make your telephone a bigger value every day.

### Enjoy a family visit in several cities at once by long distance

live, their phone numbers, and when you want to talk. She'll do the rest. You'll be pleasantly surprised at how little it costs, especially if you call after 6 p.m. in the evening or any time Sunday. Why not give your whole family a real surprise with a conference call tonight?

WE ARE A GROWING COMPANY with numerous positions available in many departments.

Mrs. Betty Braun, service representative from the San Diego Business Office, was recently appointed employee recruiter to assist in filling job openings.
